### APP SHOWCASE YOUTUBE PLAYLIST:

<https://www.youtube.com/playlist?list=PLUQm-VQnY5s3NSJ9fbZ7EEKgkBDZSwEZO>

### 2020 | ROOMSPACE (WIP)

Swift

Firebase

ARKit

Blender

- An AR mobile app to help realtors virtually stage their rooms
- Created multiple sets of 3d modelled furniture using Blender
- Remotely imports .scnz files stored in Firebase

### 2020 | SELLAR

Flutter

Firebase

ARKit

ARCore

React JS

Next.JS

- A mobile app that enables online clothing merchants to record the characteristics and measurements of their items
- Utilized and contributed to the Flutter ARKit and ARCore packages to enable users to easily add clothing measurements
- Created React JS web app for users to export their data and images to a .csv and organized folder hierarchy
- Integrated with RevenueCat to take subscription payments
- Created a Shopify App addition using React, Next.JS and Apollo

### 2020 | LIVE PRICE CONVERTER

Swift

- A mobile app that converts currencies on price tags and receipts in real time using Apple Vision's text recognition

### 2020 | DIGITALS

Flutter

Ruby on Rails

- A mobile app that displays your contact details as QR codes
- Additionally generates one QR Code as a vCard, and one that directs to a web page that displays the user's contact information

### 2018-19 | PROMOPOSTS

Ruby on Rails

Heroku

Bootstrap

JQuery

- An online digital media library and scheduling tool for promotional products distributors
- Created a library of digital content using Adobe Illustrator
